- 14 LCDC: By a 4 to 3 vote, LCDC approves an 8 page set of temporary rules, to go into effect immediately, which are to regulate the formation of new cities in Oregon; one provision states that when a county authorizes an incorporation election for land outside of a UGB, it must file for an exception to the land use goals to allow urban uses on rural land and show a need for a new city; the provision applies retroactively to all incorporation decisions after August 21, 1981, which includes the W County Court/Commission decision on Rajneeshpuram; the rules create a retroactive standard by which to judge the validity of R incorporation; the DLCD Director says the rules are needed to guide LUBA in its review of the adequacy of the R incorporation procedure now that the case has been returned to LUBA by the Oregon Supreme Court; the R lawyer protests that the rules are unfair because they are retroactive and the County could not have known in 1981 that this would be the required procedure; a 1000 Friends' lawyer says the requirements are "nothing new"; a 1000 Friends' spokesperson says they expect R to be dissolved when the rules are applied by LUBA; the Mayor of R protests that the final draft of the rules was completed only two days before the vote and no copy was available to R officials before the day of the vote and that was a violation of the spirit of Oregon's public meeting laws; a permanent version of the rules is expected to be approved in August, since LCDC has 180 days to make them permanent or let them lapse; Rajneeshee say they intend to ask the Oregon Supreme Court to rehear the incorporation case, and that if they refuse Rajneeshee will appeal to the US Supreme Court; a Task Force is created to consider the adoption of permanent rules in the matter

Feb 10 W: County Planner says the County is issuing to R 26 notices of violations of the County's zoning ordinance since the Feb. 9 LUBA ruling returns control of the 119.2 acres to W County and the zoning of the acreage therefore reverts from urban-use designation to EFU; the LUBA ruling also puts the State Building Codes Division, through the County, in charge of building inspections on the 119.2 acres; W County land use Legal Counsel says "'Hopefully, the state Building Codes Division will put stop-work orders on everything in this questionable area.'"; notices include an order to disconnect water and sewer services to the buildings immediately under provisions of the UGB management agreement between R and W County which stipulates that no water or sewer service can be connected without County permission; R maintains that the agreement is not in effect until LCDC has approved the R UGB; RIC and RNSIC will have 15 days to resolve the violations (show that buildings are for outright uses or conditional use permits have been granted); Planner states that if violations not resolved eventual removal of buildings might be required after review by the W County Circuit Court; Planner will make field inspection next week; it is estimated that the County Planning staff spends about 30-40% of its time on R issues

The German Tribune reprints Jan. 21 Die Welt article on Rajneeshee disco in Bielefeld, West Germany (pop. 315,000), citing opposition from two political parties (CDU, SPD), a local retailers association, representatives of business, the catering industry and local churches who feared the "'red menace'" would spoil the city's image and harm business which Rajneeshee had to overcome to finally convince the City Council to grant their application for a license; Bielefeld disco has since applied for membership in the city's Catering Assn.; reported that in Weisbaden, the City Council rejected a Rajneeshee disco application, the rejection was upheld in a lower court where the Council argued that the license would endanger public order "'because the Bhagwan movement is not Christian.'", however, a higher court reversed the ruling on the grounds that the German Constitution does not require business activities to be compatible with Christianity; reported that opening of Rajneeshee disco in Hanover was opposed by SPD, CDU, FDP and Communist parties, but a temporary license was issued and opening occurred in Jan.; reported that in Düsseldorf the Council is pressing breweries into boycotting the Rajneeshee disco, has stated it will never grant a license and a cabinet member has joined the opposition; reported that the publicity resulting from all of the opposition has had the effect of attracting large numbers of customers to Rajneeshee businesses

The document does nothing to persuade or educate. It is as clear an appeal as I can imagine to the very worst in the uninformed, already confused public.
