

TO WHOM IT MAY CONCERN

I am writing in support of Bhagwan Shree Rajneesh's application to remain permanently in the United States of America.

I am a Clinical Psychologist and have been employed in this capacity by the State Government of Western Australia for the last seven years. My qualifications include a Masters Degree in Clinical Psychology from the University of Western Australia (1976) and an Honours Degree in Arts from the Melbourne University, Victoria (1974).

Prior to becoming a Psychologist, I was a member of the Jesuit Order in the Catholic Church for five years (1967 to 1971) and studied a considerable amount of Christian philosophy and theology.

Bhagwan's discourses have been extensively recorded on audio and visual tapes and transcribed into numerous books.

From my position of being a Psychologist and previously a theological student, I consider Bhagwan to be an exceptional contributor to man's understanding of the human condition in the realms of science, philosophy and theology. His approach is uniquely positive and life affirmative and is an outstanding integration of eastern and western thought, of science and religion.

I recommend most strongly that you permit Bhagwan to remain in the United States and continue his religious work.

Yours faithfully,

Kamalesh.

ANAND KAMALESH
CLINICAL PSYCHOLOGIST
B.A Hons (Melbourne): M. Clinical Psych. (U.W.A)
