To whom it may concern,

I, Drs. Jan Bergers, born 11-1-1936 in The Netherlands, studied at several universities Theology and Sociology of Religion.

I am an Old Catholic priest and I am working educationally. As good as possible I follow the developments in the domain of religion and social movements.

In that way I meet a lot of people interesting the Bhagwan-movement.

I for my self, I am not a follower of this group, at the other hand, I know the influence of this devotion on people.

Because of experiencing this influence in many ways as a positive one, I declare, that it should be good, when the inspirator can stay in America.

That is why I ask to give him the possibilities to stay there and to let him inspire as he does.

Let it be possible for Bhagwan Shree Rajneesh to behold his place in the spiritual movement, in which so many people find satisfaction.

Your sincerely,

(Drs. J. Bergers)
