TO WHOM IT MAY CONCERN:

I obtained my M.B., B.S. degree in 1963 in India and
pcst graduate diploma in E.N.T. Surgery from the United
Kingdom in 1967.

Since 1970, I have been practising as an E.N.T.
Consultant Surgeon.

I first encountered Bhagwan Shree Rajneesh in 1972
in Bombay, when he was delivering a public lecture on the
BHAGWAD GEETA to a crowd of about 65,000. Since then I
have read many of his books and listened to tapes of his
discourses. The inspiration and teachings of this man
have changed my way of life and given depth to an under-
standing of my patients and their problems, physical as
well as psychological. His lecture on "Medicine or
Meditation" particularly showed me his insight and depth
in this field and helped me to understand and treat my
patients better. His understanding of the human mind is
unparalleled in the world. Bhagwan also has profound
insight into the mechanisms of the unconsciousness and
this is extremely important for all medical practitioners.

In my opinion, Bhagwan Shree Rajneesh is one
of the most important moving forces in the field
of human psychology today.
