To whom it may concern:

I wish to record my high appreciation of the work and teaching of Bhagwan Shree Rajneesh.

I am writing as a Master of Arts of Cambridge University, with a degree in mathematics. I have written a series of text-books, and numerous articles on mathematics and computing. I am at present Head of Mathematics in the above school.

I have for many years been interested and have read widely in the field of religion and mysticism, and have found many links between this and mathematics. It has recently become very clear to me that Bhagwan Shree Rajneesh is an outstanding writer and teacher in this field. His writings illuminate to an extraordinary degree the nature of religious experience, and there is no doubt in my mind that he will soon be accepted as the outstanding teacher of this century.
