TO WHOM IT MAY CONCERN

I am a veterinarian M.D. graduated in Zurich, Switzerland. I have been working as a Small Animal Practitioner in my country for ten years, having also completed a post-graduate study at the University of California in Davis in Small Animal Surgery. Beside my work I have always been looking into different schools of personal growth, for my profession above did not satisfy my inner search. I have gone through several trainings in the humanistic-psychological field and found what I was looking for in the person and work of Bhagwan Shree Rajneesh! I first met Him three years ago when I went to visit Him in Poona, India. The experience of meeting Him has had a great impact on my life ever since. In the meantime Bhagwan has become well known all over the world as a spiritual Master and a religious teacher. His vision of creating a new man with a new consciousness is becoming more and more reality in hundreds of meditation centers and communes throughout the world.

There is no living human being with such outstanding deep knowledge of the human psyche. He can certainly influence and lead mankind towards a better future..

I do hope that more and more people will appreciate and acknowledge the value of this so exceptional man!

Sincerely,

(Dr. H. Derendinger)
