DR. GREGORY B. PRESS, Chiropractor

July 20, 1983

Rinsai
c/o Hotel Rajneesh
1115 S.W. 11th Avenue
Portland, Oregon 97205

To Whom It May Concern:

I am a Doctor of Chiropractic having graduated Summa Cum Laude in 1982 from Logan College of Chiropractic in St. Louis, Missouri. In addition, I hold degrees in Bachelor of Science and Health, Associate Degree of Science, member of Phi Theta Kappa Honor Society, American Council of Chiropractic, Maryland Chiropractic Association, and Dundalk Chamber of Commerce.

I am in full support of the granting of a visa to Bagwan Rajneesh. He is an asset to this country. His deep concern, understanding and insight into this country's and its people's problems, as well as his message of hope, is a contribution to the resources and creative energy necessary for us to prevail in these present difficult times.

It would not only be in poor judgement, but hypocritical for this country, founded on free thought, to deny a man of such magnitude and worldwide popularity, a permanent invitation or visa to stay in the United States. This type of political maneuver is what I would expect in the Soviet Union or other countries opposed to or afraid of free thought.

I am not a follower of Rajneesh, but deeply respect his commitment to the creation of a model society which is an alternative to our present society which appears to be rapidly self-destructing.

Sincerely,

DR. GREGORY B. PRESS
