**TO WHOM IT MAY CONCERN**

I have had occasion to hear Shree Bhagwan Rajneesh when he was in India. I have also studied a number of his several hundred books containing his speeches and writings which are published by the Rajneesh Foundation.

Bhagwan Rajneesh has a knack of preaching abstruse philosophy as propounded by the great Seers of the past in a simple, yet, effective manner. Therefore it is no wonder that many are attracted towards him. His preaching has been immensely helpful and with sincerity and purpose one could derive great benefits out of this to be able to raise his standard of Life.
