To Whom it May Concern

16/7/83

The purpose of this letter is to publicly recognise and voice appreciation of work conducted by the disciples of Bhagwan Rajneesh in Melbourne, Australia.

Our group has been a leader in educating couples and families in the benefits of gentle childbirth and how to take responsibility for choosing the right birth methods for their baby.

Founded 21 years ago and recognised Australia wide as the leader in training child birth educators. Our educators are good due to the level of self awareness they achieve during our course and to this extent we extensively use Rajneesh Therapists.

Only people who know themselves extremely well can help others reach self awareness and Bhagwan's books, tapes, videos, meditation centres and trained therapists are excellent mediums for self awareness.

Yours Sincerely
R. J. Burrows
