

To whom it may concern,

I, Johannes, Klaas, Gerrit Viel - also known as Swami Prem Jayesh - received my Masters Degree of Social Sciences at the State University of Groningen, Holland. Currently I was engaged in studies in the fields of sociology and political science. As a teacher I held posts at several Schools of Social Work.

As I came in contact, seven years ago, with the work and lectures of Bhagwan Shree Rajneesh immediately I recognized Him as a true Spiritual Master. It impressed me that His vision learned me to look at processes that make up politics and the social structures of society from a totally different point of view than I was used to. It learned me also a lot about improving my educational work. Bhagwan Shree Rajneesh is bringing something really new, His ideas and visions give perspectives to the social sciences that are rarely found elsewhere. In my opinion and experience Bhagwan Shree Rajneesh means a lot to the scientific world and the field of education.

The above is within my knowledge and belief, and if called upon I would competently testify thereto.
