

14th July 1983,
Mombasa,
Kenya.

Officer in charge,
Visa Saction,
Immigration Department of U.S.A.

Dear Friend,

I have been a teacher for handicapped children. I have a testimonial in fine arts Division first. Grade A. and an award in competition in the college named "Creative Art Centre". Was also given an honourable place in the community to run congregation.

My husband is a well known business man and works for the well fare of people. Has produced dramas and collected ~~for~~ for poor.

I came to know Bagwan after a long search for truth. To know truth I use to go to many places - in temples, mosques and listening saints who came from India.

I was determined to find truth. I practised what I believed was moral, which led me to read psychology and what today's science believe in God, Views of philosopher like Bertrand Russel in my capacity. Read about a great saint or Guru named Crobin which impressed me very much, and I starte

going to an Ashram in Mombasa. But there were many things which I could never have found if I had not met Bagwan. Not even till I died.

There were lot of frustrations in my mind and unfulfillment. Eventually I got "Nerves". Doctors prescribed tranquilizers. There was great need for inner peace.

At this point a great realization dawn upon me to see within myself. Who am I? What is life? and what is ~~he~~^{men} doing to himself. I think a man has got many questions to ask pertaining himself. If he wants to remain mentally healthy and sane at the same time. Man is alien to ^{his} own being. He has travelled far away to a distance stars. He must learn to look within himself according to Bagwan's teaching. Other wise ~~he~~^{men} is doomed. Bagwan teaches all this and many many more unknown knowleg- which a modern man has no capacity to perceive or imagine. I think of Bagwan as the savior of mankind. When at first I heard Bagwan's tape something immediately stered into my being.

His purity and Godliness is felt to who ever comes to him and listens to him. He is a real phenomenon.

I have read many of his books and tapes since four years, and have become his lover and Sanyasin.

My life is changed. I feel life more and more ~~love~~

beautiful. He has given a new consciousness through which one could ~~perceive~~ perceive the unknowable which man has never thought of!

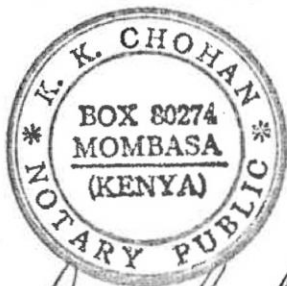

To see this glorious world of beauty and splendour and to feel unknowable in full splendour is religion. God loves us but we don't know how. God wants us to listen to him, but we don't know how. God is within and without. You have to listen to Bhagwan to know all this.

Men needs true understanding of religions. It is not something ~~etc~~ which can be given by any body. He is an enlightened one.

Perhaps when Jesus said men will resurrect, he meant we are going through the death of our soul unknowingly and clinging to dead religions, which gives us no peace.

I think the day of judgment has come to us whether to accept Bagwan to follow on his path, and bring ~~bring~~ light to illuminate darkness, and know who we are.

Internationally Bagwan can act as a leading figure to bring peace in this world. Because he has a capacity to change beings of men.

Ma Anand Sureya.
