Dear Persons:

I am a clinical psychologist in private practice in Nashville, Tennessee. I am writing in support of Bhagwan Shree Rajneesh's request that he be allowed to remain in the United States. My most direct knowledge of him has come through his writings and tapes. They reveal him to be a very rare and unique teacher in our time. He seems able to synthesize a vast knowledge of history, philosophy, religion, and psychology in a way that sheds a very powerful light on the path to human wholeness and well-being.

I encourage you to support his teaching by allowing him to remain in this country.

Sincerely,  
Linda Odom
