Dear Sir !

Today I've got the message, that Bhagwan Shree Rajneesh will perhaps have to leave the USA. I think, this would be very sad and a great loss for the USA.

My profession is photography, art, publicity and Bhagwan Shree Rajneesh is my master, teacher, friend since 1982. Many things have changed for me - and for many people, I know, too, during this year through the love and through the efforts of Bhagwan Shree Rajneesh. - Also and although when he doesn't talk to his disciples. There is a strange and very intensive communication going on silently between Bhagwan and his

disciples or better: all the people, who love him.
Bhagwan Shree Rajmlesh is for me the most
extraordinary, enlightened person, living in this
world today. His love and his thoughts have
a great influence on many, many people and
I found it very sad if he would have to leave
the USA, where he was able to build up a new
and very special commune in the State of Oregon,
- until now. Rajmleshpuram is a great adventure
and the realisation of the vision of a very extraordinary
man, Bhagwan Shree Rajmlesh.

Yours faithfully

Thomas von Salomon
