Dear Sirs,

May I introduce myself:

I was born at January 3rd, 1932 in Bad Freienwalde/Oder (near Berlin , Germany)

development: final examination of secondary school in 1950,

> in the following two years I got through practical courses in all
>
> kinds of housework, nursing in hospitals, hotel-kitchen work etc.;
>
> after that from 1952 - 1953 I studied Marxism at the Humboldt-Universi
>
> ty in Berlin (east) until the 17th of June, 1953, the day of revolt
>
> in eastern Germany. Very shortly after that I left the eastern part
>
> of Germany because it became too dangerous for me to stay any longer.
>
> At the Free University of Berlin I started my studies of pedagogy,
> at that time
>
> psychology, political economy and management until 1958. This training
>
> ended with a diploma-examination, an academic degree as a Diplom-
>
> Handelslehrer. Subsequently I was promoted to a senior assistant
>
> master of the Federal State of Hesse (FRG).

I knew Bhagwan through personal contacts in a meditation-center of my home-town,

Kassel, in Western -Germany, where I lived since 1961, in my residence since 1974.

Especially through his books I were deeply impressed because I relized that I

have had nearly the same ideas and feelings since the time of my youth. That was

like coming home for me.

So Bhagwans exceptional ability in religious teachings and spititual leadership

give to me and many of my friends all over the world, e.g. in Dutch, England and

the Netherlands,

Spain, whom I became aquainted with during my travels, a feeling of humanity
and religous promotion, that spread into my work, and my relationship, especially
to my husband and to my mother.

I am thoroughly convinced that by ~~Hoxxxheaxhoxxx~~ Bhagwan's teachings and
exceptional abilities as a religious teacher and spiritual leader both a
third world war and a worldwide suicide and collapse of mankind could be
prevented and the brutality that still remains in mankind can be transformend.

Yours very truly

Helga Jürgensen - Uertecig
