To Whom it may concern

Following my husband, Franz Seiderer, who was appointed as treasurer of The European Space Agency in Paris in 1970, I discovered the teachings of Bhagwan Shree Rajneesh and found them enriching for my professional and social life.

My relationships with the diplomatic world as well as with the world of (LES createurs) became radiant and contagious.

My encounter with Bhagwan Shree Rajneesh, as master of a New Age, has enormously deepened my knowledge of humanity and has brought to my work in fashion and its distribution a great enrichment.

To me , Bhagwan is the most radiant, extraordinary being I have ever met.
HE IS DIVINE.

Sincerely

Christi Seiderer
