To whom it may concern.

As the Headmaster of Wrekin College, a co-educational independent school of three hundred & fifty boys & girls from the ages of 13 to 18 years, I write in support of Bhagwan Shree Rajneesh.

I am convinced that he is an outstanding man of our times whose significant influence & teaching can only be for the good of mankind.

His growing contribution has already made itself felt in the peace loving free nations of the world in general, and I have noticed his beneficial effect upon a number of my pupils in particular.

I am grateful to him for that & believe him to be a vital force for good in our time.
