To whom it may concern,

may I introduce myself. I am scientific assistant at a training institute for secondary school teachers, allied to the university of Groningen, the Netherlands.

I teach art history and art education.

I came to know about the theories of Bhagwan Shree Rajneesh when I prepared a series of lectures on the phenomenon of creativity.

The clarity with which Rajneesh expresses thoughts, in easy and direct style is remarkable. In my opinion, he is one of the greatest visionaries of our time. He integrates theories on psychology, art and religion into a new complete understanding of the human being and his needs.

I hope the authorities of the United States of America will understand the privilege it is, to be in a position to offer hospitality to this great man.

Yours sincerely H. J. M. van Schie
