To whom it may concern

Working as a social worker with young drug-addicted people in a youth center the meditations and teachings of Bhagwan Shree Rajneesh were very helpful in various cases to improve the responsibility and appreciation for their life, and give them new values which before they were lacking to such an extent that their whole life-approach was destructive - expressed in their drug-abuse.

According to my experiences the teachings of Bhagwan Shree Rajneesh, represented in his books, have a quality of freshness which enables them to even reach very closed and egocentric personalities.

Yours sincerely
