" To whom it may concern "

I am a well - known dentist in Kiel; since 13 years I have my own dentist - practice.

Before I met BHAGWAN, my life was filled with a lot of stress because of my work and my family. I had no contact to other people, except through the work.

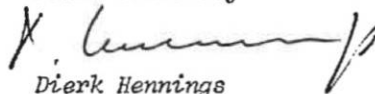

Since I have the contact to the spiritual leader BHAGWAN SHREE RAJNEESH , my whole life changed totally. I feel more relaxed in my work and in relation to my family and other people. I can enjoy whatever I am doing - even if I have a lot of work and I feel much better in my physical and mental body. I have come to BHAGWAN through his words: books, tapes and videos; and his meditations.

For me BHAGWAN is a religious teacher, he has spoken so many words about his vision of religion, the new kind of man, the truth, love ... so that anyone who wants to understand him can understand him. What he is now teaching through silence goes even deeper and I can't describe it with words - but I felt it, when I met him in Rajneeshpuram. I also saw the beauty in this land and in the people who are living there.

Jesus also does not talk anymore and I think you have a great opportunity in America because BHAGWAN is an alive master.

In the hope that he will stay in America

Yours sincerely

Dierk Hennings
