

Amsterdam, July 18th, 1983

To whom it may concern,

In the last seven years there has been a growing interest in the educational field concerning the work of Bhagwan Shree Rajneesh.

As I was studying child-education at the University of Amsterdam, a lot of attention was given to a humanistic educational theory development, that was completely in line with Bhagwan's down to earth and man-respecting religious concepts.

As I was working for the city-government of Amsterdam, I became His disciple. His words became a fertile reference-point in the work-department, a useful starting-point for discussion and a clarity-level for everybody.

It is clear that the influence of His exceptional vision is much vaster than the group of His disciples, wearing red clothes and the mala.

A lot of other people are in favour of Bhagwan Shree Rajneesh and they are helped tremendously by His insight, love and awareness.

Sincerely Yours,
