

To Whom It May Concern -

I am writing this letter to share with you how Bhagwan Shree Rajneesh and His influence on my life has changed and affected my work as a sign language interpreter.

I graduated from the Interpreter Training Program after 2 years in 1982, at Denver, Colorado. I have been a disciple of Bhagwan for the past 3 years, and have watched a continuous transformation in my personal life as my professional life.

I have gained a tremendous amount of confidence in myself - this is especially important as an interpreter, as it is usually necessary for me to be on a stage in front of large groups of people.

Also, in my attempt to put Bhagwan's teachings into practice in my everyday life, I have been able to bring more awareness, aliveness, and joy into my work. Complete attentiveness and clear thinking are essential in

translating from one language into another.
I feel very certain that my connection
with Bhagwan has been a powerful force
in my life and my work.
