

Skåne

To whom it may concern that
Bhagwan Shree Rajinsh
had to leave USA because of
non-prolonged viza.

I, Björn Norbäck, 59 years old have since
23 years worked at the General Importer
in Sweden for Volkswagen and Audi cars.
In the Service Market Dept of this firm,
V.A.G. Sverige AB, I develop and follow up
the use of organisatory and administrative
systems for the workshops in Sweden to help
them to give good service to our customers,
the owners of the cars mentioned above.

During a couple of years, in fact 11 years
since my elder daughter joined the movement
of Bhagwan, I have followed what this
brilliant man have done of good to people
of all ages, sometimes earlier with social
problems. I have not met Bhagwan
myself but have intesively followed how
he has got "his" people to produce things
of extremely high quality in short time
both in the Arts and Science fields.

I am really impressed and can only congratulate the country which is wise enough to let him work among others in the fields of religion, economy, culture, industry, improvement of the environment.

USA must be extremely suitable - for both parts - for a man of Bhagawan's dimension as a free, big, tolerant country.

Yours sincerely
John Norbeck
