To Whom It May Concern:

Bhagwan Shree Rajneesh is an extraordinary human being; a person whose high quality of love and intelligence has already transformed the lives of hundreds of thousands of creative individuals all over the earth.

He should be allowed to remain in this country. In just two years, the power of his spiritual presence has inspired his loving disciples to create an oasis in the desert land of central Oregon. Just to visit this new-blossomed city and witness the amazing construction already accomplished will bear witness to the way he inspires his people to create miracles.

I am a disciple of five years, living in San Francisco and working as a High School English teacher. Some of the most inspired teaching that's happened in my classroom I can directly attribute to Bhagwan's teaching and his love. His insights into Psychology, Sociology and Religion are awesome.

He is our religious teacher, and the peaceful beauty that surrounds him generates tremendous vitality. Our ranch has brought millions of dollars into Oregon's economy through agriculture, tourism, and the highly successful Festivals that happen several times a year.

Bhagwan's presence in America is clearly positive.
