To whom it may concern,

I consider Bhagwan Shree Rajneesh to be a person of exceptional ability and believe that his presence in the U.S.A. is and will be of great benefit to the people and country as a whole.

I came into contact with the teachings of Bhagwan in 1976 just after I had completed my graduate Industrial Training with Plessey Company Limited in Hampshire, Engle. I have a B.Sc (Hons) degree in Electronic Engineering from Southampton University. Reading Bhagwan's books, listening to his tapes and practicing his dynamic meditation completely transformed my life. It made me much more relaxed in my relationship to people at work and at home. Physically I used to suffer from incurable mouth ulcers and headaches which are now completely gone.

I have been with Bhagwan many times when he was in India and here in the U.S.A. I am always drawn by his magnificent presence. He has an extraordinary ability to communicate his teachings without saying anything. This has happened during the recent festival at Satyan and at darshan and happens everyday during his daily darshan. The expression on his face, the look in his eyes, his every gesture communicate his clarity and his message.

whenever I am near him I feel more relaxed, happy and joy. I suddenly realise that there is no need to be so serious, no need to be tense or worried and as a result I find that in my work I get more done with less effort and more efficiently and beautifully. His basic message is that if we live this moment totally, if we celebrate this moment right here what comes out of it will be good.

Hundreds of thousands of people in the world today ~~have~~ have been benefited by reading Bhagwan's books, by practicing his active meditations and by being in his presence. I hope Bhagwan continues to live here in Oregon and goes for his daily drive for many years to come.

Yours sincerely  
Hardee Bharti
