To Whom It May Concern

I am a professional person who received a Master's Degree in Guidance and Counseling from Central State University in Edmond, Oklahoma in 1981. I received a B.S. in Education from the University of Oklahoma in 1966. I taught elementary school for 5 years, was a director of a childcare center for 3 years, and taught psychology and child development for 4 years at El Reno Jr. College.

I came in contact with Bhagwan through listening to audiotapes and reading his books. I have since spent 3 weeks at Rajneeshpuram, Oregon, where he resides.

I feel that in the field of psychology Bhagwan's approach far surpasses anything available anywhere at this time. He has combined the theories of Carl Jung and other psychologists who speak of transformation with various worldwide spiritual teachings into a composite that can be practically applied in life. I have observed people who were poorly adjusted, taking drugs, unhappy and feeling lonely, being changed through Bhagwan into happy, loving, extremely productive individuals. He is a genius whose brilliance reaches each individual who becomes interested in him in a special and unique way. Nowhere do I know of a person whose influence so directly adds to the quality of life of so many people. Nowhere do I know of a person whose ability in the field of psychology is as exceptional as that of Bhagwan Shree Rajneesh.

Sincerely,
