

To whom it may concern.

I have been a general manager of various foreign subsidiaries of an international pharmaceutical Company ^{for 15 years}. I have a degree in economics at The University of Brno - Holland and at The London School of Foreign Trade - England as well as a diploma in pharmacy at The University in Amsterdam.

My first contact with Bhagwan Shree Rajneesh was reading one of his books three years ago. Immediately his religious teaching deeply touched me and gave me a vision of life which is so much more meaningful.

During the last few years I had the opportunity to be in His presence during my visit to Poona India and the Festivals in Gwalior and each time I became greatly impressed by his extraordinary wisdom. His vision on life has greatly helped me in my work. It has given me new insights and inspirations and made me also review my relationships with others; more understanding and sincere.

To me it has been a unique experience to visit
Rajneeshpura and to see with how much energy
and love this city has been built in a very short
time and under difficult circumstances, which
is only possible in the presence of a man of great
values and love.

It is without doubt that Bhagwan Shree Rajneesh
is a telepathic leader of exceptional importance
and with great international influence.

7-24-1983.
