to whom it may concern:

I, Kristian Vilthoft, Liujagersgade 18, DK 2100 Copenhagen, Denmark, am a school teacher. I graduated in February 1975 from *Stattseminarie pa Eudrupborg* (State Teacher's College) in Copenhagen. Since then I have worked in various fields connected with children and education: a year and a half in a kindergarten, a year in a creche and from December 1978 I was employed as a teacher by the Municipal of Copenhagen.

In 1981 I got in touch with the teachings of Bhagwan Shree Rajneesh - through audiotapes of His discourses and through personal contact with His sannyasins. I began reading His books and it was a revelation to read what Bhagwan has said on education. He has an insight into human psychology that far surpasses what I have met any other place - either during my education or later.

To me, Bhagwan Shree Rajneesh is an obviously outstanding personality who has demonstrated his extraordinary calibre through his numerous books and discourses. Any country should be proud to welcome Him, not only as a visitor, but as a resident.

For me personally, the meeting with Bhagwan has been very influential. I have become a sannyasi and I have used the possibility to be with Bhagwan in silence, at both the First and the Second Annual World Celebration.

Yours,

Kristian Vilthoft
