To whom it may concern

July 27,

After I finished college and have been working as a bank administrative, I studied economics. The deeper I got involved in my university subject I recognized that existing economical concepts are unable to create a human world with a beautiful, peaceful lifestyle.

Since I came in contact with the teachings of Bhagwan Shree Rajneesh, I know about a way fundamentally to create something better. His vision about the "New Man" includes ~~of~~ all topics of science and human knowledge.

Visiting Rajneeshpuram I got to know His vision already being alive and steadily growing. There a really beautiful, loving, peaceful and -really- human society exists.

Around the master Bhagwan is one of the most existing experiments in our days happening, His presence in Rajneeshpuram helps to vitalize His loving, beautiful vision of a peaceful world.

Sincerely

Joerg Scharnhorst
