

To whom it may concern :

My name is Masahiro Oseko, the name which was given to me from Bhagwan Shree Rajneesh is Swami Govind Shahid

For seven years I'm working as an engineer designing steel structures like bridges, gas tanks, penstocks etc.

The work as an engineer is hard & long in Japan. I imagine it's the same in the U.S.A. It was not easy for me to enjoy it because ~~it~~ sometimes it's too hard and I got frustrated. The same can be said to my friends engineers.

After knowing Bhagwan's teaching and his meditation techniques I've become able to relax in my work. Not only be able to enjoy it but also I can enjoy it! Then I became his disciple 1981.

The deeper I get into His world, the easier it's become for me to enjoy many things. You probably know how wonderful things we can do when we are relaxed.

I visit the U.S. to see Bhagwan every year. In the beautiful silence, He teaches us how to love our own life, how to love other people, how to love this world.

I'm happy to be with Bhagwan.

Sincerely yours,

Masahiro Oseko
