To Whom It May Concern:

It is my great pleasure to acknowledge the enormous contribution that Bhagwan Shree Rajneesh has made to my professional work in the fields of medicine, psychiatry and psychology. His clarification of the benefits of meditation in every day life for a healthy body, mind and spirit, the importance of emotional cleansing and working through the mind's excessive repression, distinguishing the signs and symptoms of spiritual crisis and renewal and making peace within oneself, one's family, nation and the world at large.

Bhagwan Shree Rajneesh is certainly a highly renown international expert of singular importance in the field's of psychology, philosophy and religion. His work has contributed to my best-selling books and to the medical and psychiatric work that I do.

I look forward to him remaining in this country so I can continue my professional growth and development with him.

Sincerely yours,

Harold H. Bloomfield, M.D.
