

Rayneship...
On 07-74

To whom it may concern:

In the past 31 years I've graduated from Terrebonne High School, and have had many jobs in my life; stock clerk, salesman, lineman for the phone company, musician, and handyman, to name a few.

In 1971, I joined the Air Force, and then in 1972 the National Guard on the Palace chase program. I have been married and have two children.

I met Bhagwan in 1982. Since then I have become a Rayneshee and now feel that what I am doing has a real purpose in life. For one thing, being in His presence and part of this community has given me a sense of commitment & strength that I had only dreamt about before.

When I arrived at the ranch, I could not believe how friendly the people were. After I took the tour of the ranch I saw it was true. All the things I had been feeling on the inside were happening on the outside; people living in harmony with each other and nature.

I am now a part of this great adventure, I had dreamed about. I am now actually living this harmony. My work here, now varies from day to day and allows me to use all my talents. Before in my work it seemed not to have a purpose. Now I look at work from a different perspective. The work thus becomes a meditation.

Bhagwan's spirit has nourished this dream for me and has enabled me to make the harmony with myself with the people I work with and relate to, a reality.

Sincerely

Terry J. Pellegrin Jr.
