To whom it may concern

I had the opportunity to study for seven years in the United States of America, where I got the following degrees: a BA at Antioch University, Ohio, and a MA at CSUN, Northridge: both in art history. After obtaining these two degrees I left for Switzerland where I established myself as an independent art historian. I am still working closely with CSUN Northridge, and I am at the moment engaged in a larger project for their museum.

While I studied in the US I participated at several occasions in seminars with Bagwan. The seminars were of great benefit to me, and I confirm that other people felt the same way. I personally think that Bagwan is of great importance for many students seeking to understand themselves, and the chance to stay in the US should be given to him.
