TO WHOM IT MAY CONCERN

I live in Switzerland and am 28 years old. After finishing school at 15 I went to a School of Commerce. I worked in various professions, as a sales assistant, in a bakery, in the vineyards and at a gas station. Village life was based on tourism and seasonal work allowing me to travel Europe between seasons. When I was 20 I moved to Zurich and worked in a team of 12 at a travel agency. Later I led this team with another colleague.

I have always been fascinated by people and their lifestyles and read a lot of philosophy and psychology books. I somehow never found a real answer to my question, only more questions. I practised yoga for two years till I became dissatisfied. I was interested in bodywork and on reading Arthur Jarov's book "The Primal Scream", I decided to take part in a primal therapy group.

This primal group was my first contact with Bhagwan, as it took place in a Rajneesh centre. I saw how his disciples lived together in a unique way. Never before in my life had I experienced so much beauty and love. Bhagwan enables us to do everything with a greater love and awareness. I had a new positive attitude to my work in the travel agency, which helped my colleagues too.

I'm currently visiting Rajneeshpuram and am amazed at the amount of energy people here have. Working long hours in a relaxed and happy way. This is made possible by Bhagwan living amongst them. His presence is the foundation on which we can build.

With best wishes,
