To Whom It May Concern:

In my professional life I have been a private school, center and Institute director. I have also taught young children, teenagers and adults in private as well as public schools after I received my B.A. and Teaching Certificate from Homline University in 1973.

When I ceased teaching, I received a three-year degree as a Gestalt Therapist. I opened my own center, The San Francisco Effective Learning Center where I worked with neurotic adults in personal therapy/ growth groups as well as individual counseling.

In 1980-81 I was a Head Resident at St. George Homes in Berkeley, CA. I lived with & counselled schizophrenic teenagers.

In teaching and counselling these people I always wished I could offer them more than just my own expertise and guidance.

Now since becoming a Rajneshee living at Rajneshpuram, I feel very satisfied in giving not only my expertise and my guidance but my caring and love.

Bhagwan, through his love and spirit has opened up my heart and let my love flow to the people I work with here.

I am content and feel that I am living up to my potential as a professional and private human being.

The love and cooperation and true religiosity in the Buddhofield with Bhagwan has transformed my life.

Now my work is truly my worship

Sincerely,

Beverly Anne Sabat
