To whom it may concern.

I have been involved with Bhagwan Shree Rajneesh since Sept. 1978. Since then through his teachings and presence, my life has changed.

This is particularly so in my relationships towards women and my approach to life and what it had to offer.

Before Bhagwan I was always frightened of other people, often becoming depressed and a loner, very angry towards others, even my family. I didn't understand why and what was happening to me, why I was so unhappy and distrusting towards others.

As a mechanic, after doing Bhagwan's meditations there is a more genuine approx to my work and my bosses. I feel so much more alive and content with my work and people find me much more relaxed and easier to work with. I was always rushing around carelessly, causing repeated mistakes, not really wanting to be there working before.

It never ceases to amaze me when I am in his presence, feeling his warmth and love, realizing there is a more alive and joyous way to live.

When I visited during the Festival I was really excited to see what is happening in Oregon, the love that is put into even the smallest details at Rajneeshpuram to make living and working together with a living Religious Master an incredible opportunity to become aware of our own creativity and ourselves.

I can see through Bhagwan's guidance the immense

opportunity for other people to see their own capabilities after relaxing more. After putting down their defences, they too can open to what is available to everyone, as I have discovered myself.

Bhagwas has been the gate for me to become a more honest person in both the relationship towards myself, my own workings, and with other people. I hope he will be available to me for years to come, and to others so that they too may appreciate a truly beautiful experience and have the opportunity to live life in a more joyous and loving manner.

Yours sincerely

Mr R C JACKSON.
