To whom it may concern

I am a trained Psychiatric
Therapist & a business man leading international
businesses throughout Europe & North America.

I first came to know of
Bhagwan in the early part of 1973 & was
immediately impressed. Bhagwan is a person of
exceptional abilities in the Arts & Sciences
(Especially the Science of Psychology), and a religious
leader whose teachings include & surpass all the
Sciences & Religions - This is a man of deep
understanding of man & his problems, & how those
who have come in contact with him including
myself, through his books, Discourses & Darshan
have changed rapidly - Dissolving all personal
conflicts, anxieties & Neurosis & becoming better
human beings, having more insight & inspiration
in ones work & life.

Although many people are not disciples
& have not read his books or been in his
presence would raise questions about his
methods & techniques - But I say to you,

ii
Look at his people, at their work & the environment they live in & see the beauty & change - That is the final Testament.

Bhagwan is a tremendous & valuable asset to any country, and the United States would benefit in an economic way, culturally & environmentally.
