

Jes. Grove
Rajnesekpuram, OR

To Whom It may Concern:

I have written before to ask you to consider positively the application for Bhagwan Shree Rajnesek. I was a successful real estate broker at that time in Vermont - and formerly a school teacher, personnel assistant at the University of Vermont, mother of three and wife of IBM executive. I obtained a BS degree from the University of Vermont and continued to pursue course work as time permitted in later years. Also during these years of raising a family etc. I worked in Interior Design and was chairman of volunteer hospital projects in Poughkeepsie, N.Y. and chairman of Mid-Hudson Parkellenic Council. My time was also in the Garden Club House in Burlington, Vt. - an honor in the area for unusual & beautiful homes (I was also an avid skier & pilot)

All of this has made me feel fulfilled; however nothing I ever experienced has opened up the dimensions I feel now through the presence of Bhagwan. He truly has given me a new understanding of the true nature of myself and society. He is a genius and the RARE MAN of our times. Please don't let us lose such a gift. Spiritually I have felt adrift and poor before Bhagwan. America can surely benefit from Him.

Sincerely,
Joan Love
