I, the undersigned, am a Private Medical Practitioner having been qualified for the degree of M.B., B.S. in Bombay, India. After working in India for some time I came to East Africa and established my Practice in Mombasa, Kenya. For many years, I have taken keen interest in social, cultural, religious & educational activities in various institutions of Mombasa.

I came to know Bhagwan Rajneeshji through his writings, Radio & Video Lectures and by attending lectures & classes for meditation and other spiritual activities. The meditation etc as preached in these classes gives so much relaxation and peace of mind that we can concentrate better in our daily-life-work, confidence and improve the quality of work. A man like Bhagwan Rajneeshji is a loss to the society. Bhagwan does not belong to any community or country; he belongs to the entire world. In fact, he is a citizen of the world.

The world should take advantage of his vast knowledge & experience for world-peace. His mission as well as teaching is for the Peace of the world which is very essential in these days of stress & strain. To-day there is hardly any real peace in any part of the world; and the teachings & preaching of the Bhagwan become all the more necessary for the suffering humanity.

I sincerely wish that Bhagwan Rajneesh be freely allowed to stay and move about in any country in the world and spread his message of Peace & Tranquility everywhere. He should be particularly granted freedom of movement in the U.S.A. where freedom & democracy are at the highest, and who will provide him a vast field to preach & fulfil his mission of enhancing World-Peace through spiritual means.
