Dear sirs,

Being deeply involved in business for years, I want to express how much BHAGWAN SHREE RAJNEESH teachings have been important to my life personally and professionally in terms of self-realization.

Through his books, his meditations techniques, the attitude of his followers, I have considerably increased my efficiency.

His spiritual guidance, by connecting one to consciousness and love, and helping to go beyond one's limitations, has enabled me to face my personal life and reach my present level of responsibility.

Brought up a Christian, and being deeply concerned by the message of Jesus-Christ, I have found with Bhagwan the best way to live out this religious feeling. I did search a long time for such a spiritual Master.

Very sincerely yours,

Thierry Dubois
