

IVAN DE MOT

SINT JANSTRAAT 4  
B - 8140 STADEN  
BELGIUM

JULY 17, 1983

I, Ivan De Mot, am a pharmaceutical chemist; I have done my studies at the RIJKSUNIVERSITEIT, GHENT, BELGIUM (1964 - 1970). I have already ten years' of experience as the owner of a large pharmacy in Staden, Belgium.

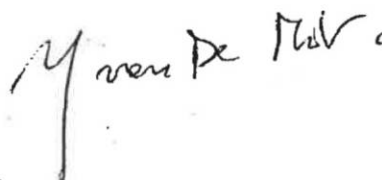

I feel to write this letter because I would like to state how I met Bhagwan Shree Rajneesh and what he means to me. I heard for the first time of him from a yoga teacher who gave me some books of Bhagwan's religious teachings in Poona. He combined the ultra modern western things with the teachings of Buddha and Jesus.

So, after, running my pharmacy, something has changed - the quality of doing it. I am working now in a space of more freedom because I can give the people now just a little bit more than medicine.

I am convinced that no other person than Bhagwan can show his insight to EVERYONE in such a short and easy way. He is an incredibly fantastic person.

So that is what I like to tell you in a few words. Thanks.

Yours sincerely

Ivan De Mot
