

To whom it may concern.

I'm a swedish musician who's been working professional for almost fifteen years now. I've been backing up severals of artists on tours ans records here in Sweden. I've also recorded three albums of my own and for the time I'm a member of a wellknown group, touring all over Scandinavia.

I have a grät respect for Baghwan and his work. I've liasten to many tapes and red some of the books and it has inspired me a lot in my work. He is really a person with exep-tional abilities and I know that he is of great importanse to many creative persons

With kind regards

Lasse Englund
