

To whom it may concern,

In this letter I intend to explain to you from what background I have come to know and appreciate Bhagwan Shree Rajneesh and express in what way he has struck me as being of exceptional stature philosophically, psychologically, religiously as well as practically.

So the information you need to have is as follows.
I was born and raised in the

University milieu of Leiden - Holland,
the oldest University in Holland, one
of the oldest in Europe (1574)

Considered of the highest standards in
my country the fact that my Father
was one of its best known and highly
appreciated professors (medicine)

All the scientists of world-reknown
who visited the University used
to stay at my Parents home.

Needless to say that being used to
converse and be around such high
class people inelleosually my own
standards were formed accordingly.

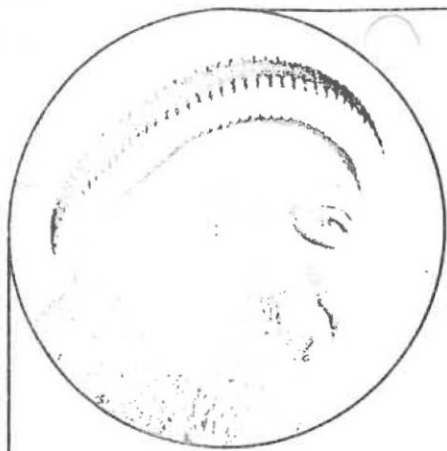

Adding to that both my Father and
my Father in law were highly valued

politically; My Father in Law
coming to the U.S.A. as a represen-
tative of the Dutch government
and people after the war, offering
to your government the bells
that are now in Washington as
tokens of gratitude and mutual
friendship. Again here - in this
field I have been used to living
with exceptional people, meeting
Churchill in my Father's house
and many, many others...
Offering flowers to the Queen as
a child, etc, etc.

The one reason for writing this letter, is to witness and testify that when in later years, having lived life to the full (making my own studies at the same university, marrying a Bachelor of the Aurore among other qualifications, member of the Am Society for Industrial Security - raising 7 children, through university and careers in banking and international business corporations)) at the age of 55 I met Bhaywan Shree Rajwesh there was no doubt in my mind that here was some-one who outshone them, all in whatever category I might be tempted to put him. No way was it possible for me not to acknowledge his superiority.

3.

If anybody ~~he~~ can raise the
consciousness of the world-population,
of every human being - who is at all
interested in Peace and Joy and
Abundance for every one on our
Planet! To have Him here is such
an incredible chance: the U.S.A.
or any country can no doubt
only benefit from His Presence.
