TO WHOM IT MAY CONCERN:

As a social worker I worked many years with children. Bhagwan Shree Rajneesh's approach towards being with children and educating them is very different and exceptional. He wants education to be a digging out of the inner being of a child and not stuffing a kid full of knowledge. There is a lot of trust in the intelligence of each single child. And each person is so individual and beautiful.

Being a disciple since 6 years I experience that the most beautiful thing about Rajneesh disciples is that each one of us is so unique and individual. Bhagwan works with us disciples through His silence. After hearing His teachings many years there is nothing to say anymore, but to meditate and look inside oneself. Sometimes this is not very easy, because there are a lot of painful things to see too, and my feeling is that only in such a loving environment like this commune one can really gather the courage to go deep.

Rajneeshpuram is an oasis in the desert that is founded out of the being and teachings of Bhagwan Shree Rajneesh. It is a holistic approach to live in harmony with nature, oneself and other people. If you come for a visit you will see yourself with how much intelligence and love this place is created and maintained. This itself is evidence enough that Bhagwan Shree Rajneesh is an exceptional intelligent person.

Sincerely,
