To Whom it may concern

I would like to mention a few things dealing with how Bhagwan Shree Rajneesh effects my life. I first heard of Bhagwan while in Hawaii, at the age of eighteen. I read a few of his books, which I found to be intriguing, for in this day and age I had come across so many books and ideas which meant little or nothing to me. His books dealt with religion, science, psychology, spiritual teachers of the past, and present, all put in a way which shed much light on these subjects. Also the space was created for people to express, and grow in a comfortable atmosphere.

Today we are creating a city, which is an incredible experience to actually work with people, and feel something grow, is something many of us don't know, it's getting along, rather than doing everything you can to outdo the other. Before coming here to Rajneeshpurna I drove semi-truck for a living, I love this skill as well as other skills I have, yet it was

very competitive and frustrating. Currently I am working in the automotive
garage ~~and~~ which is a great opportunity. This place is so much
more than I am sure a lot of people perceive. It means a lot
to me, and many others. Blayunas presence is the focus of my
work, and stay here. What is here is so positive, that it is
of great importance to have such an internationally recognized
spiritual leader, here in the United States with us.

Sincerely
Dr. Michael J. J.
