To whom it may concern!

I am German and I am visiting here at the Rayneesh Ranch since 1st July.

I am very very happy and thankful that it is possible for me to travel here to see my master and be with him for a while.

Even he is in silence, he teaches me so many things, like how to work and meditate, how to live peacefully, lovingly, how to give - he changed my life completely.

To be with him and see him every day driving by on the road, is very important for me; it gives me a lot of strength and love which I take back to my country and so be able to give it to other people.

I feel a strong connection to him and the non-verbal communication with him is on a different level.

very deep level.

Though - with this letter, I ask you to make it possible, that Bhagwan Shree Rajneesh is allowed to stay in this country.

Ma Apana Gabriels
