

Rajmashpuriam 7/26/83

To Whom it may concern

Running a little "painting house" business in Switzerland, bearing the title of "master painter" - passed the federal examination in June 74 - and coming to Rajmashpuriam for the festivals, I would like to express and underline very strongly that meeting Bhagwan Shree Rajmash has changed the quality of my life totally, thoroughly, for a better that I had not even imagined before.

Through His therapies I became much more relaxed, loving, understanding.

Through His meditations I am experiencing incredible spaces of wellbeing.

And in His presence He is giving so much, sharing of His ecstatic state of being. His silence is so pregnant, so rich that it makes me feel immensely grateful.

I wish everybody could feel that ... If people are not interested, I understand, but at least, they could allow it to happen. Why are they trying to suppress other people's joy? With this joy they are not doing any harm to anybody, at the contrary ...

Feeling this bliss with Bhagwan, makes my life much more simple and rich in the same time; problems

don't have the same weight any more and are
much more easily and readily solved; in fact, by relaxing
many times solutions are just coming by themselves, wonderful
ideas are coming ...

Coming each festival in Bhagwan's presence, it's
like coming to get your batteries recharged with joy, with bliss,
with laughter.

He is the only man on earth, I have come to know
with my own experience that have this incredible, extraordinary
qualities that in fact make Him "Divine".

His very presence is so radiating that it changes
the quality of everything around him. Rajnashpuram is the
most beautiful experiment happening in the world, because
He is here, and I am asking you, Americans, from the
country of freedom and future, to live up to your ideals,
and allow Him.

Sincerely

Felli
