our center now  
Le reha Tishner  
Inher R.S.A.  
8051 Margarethenrio  
No. 6  
West Germany

To whom it may concern:

I have been working as a kids teacher with children in the age between three and six years, for two years. After that I continued my study in social work on the High School.

In this time I was very interested in politics, philosophy, psychology and in a new way of living. I read a lot of books about that, till I got a book from Bhagwan Shree Rajneesh. I was fascinated from his reading like from no other science book before.

That was the point, that made my whole life changed. I did different groups in the Rajneesh therapy institute, listened to his discourses, read more books and did the meditations that he proposed to do.

He became my religious master and I took Sannyas at 1981. Since two years I am living in Sreha Rajneesh Sannyas Ashram, a therapy center in Germany. I feel more and more alive, a lot of fear is gone and instead I got a lot of joy and celebration since I met Bhagwan. The same I see happening with other people who are visiting our center, people with every kind of social background, feeling depressed and sick in this rash of civilisation. After spending some weeks with us, doing his meditations and therapy groups, I see their faces relaxed and blooming. Some of them are taking Sannyas.

In the moment, I am visiting Rajneeshpuram, the only place with Bhagwan's presence.

I am overwhelmed about what is happening here.

I never met such a lot of beautiful men, women and children.

Because of him things are happening, turning into reality about everybody is dreaming in the whole world. To work a lot but with joy, togetherness and without pressure, you will find no cigarette buttons on the ground, it really shows that everybody becomes able to be aware about his space of living, no commerciality, no discrimination, a lot of joy love and laughing.

Heaven has started here.

I'm thankful to be here with my master

Yours sincerely

Ma Chetan Kishi
