

To whom it may concern, Swami Prem Sagarpati
legal name, Mark Harmon - 18 Mandolong Rd
Mosman, NSW, Australia.

My relationship with Bhagwan Shree Rajneesh began after he went into silence and was experienced mainly through his books and taped discourses. After doing his meditations and feeling the cleansing of much of my inner world I took Sannyas in his presence, and knew something of what it meant to be in direct contact with an enlightened master. After living on the ashram in Oregon the inspiration of his presence is even more easily witnessed as it manifests itself through a beautiful and loving cooperation among the ashramites and the stream they are unfolding beneath his guidance.

I feel deeply indebted to Bhagwan, and the gifts he is laying before us make us indeed very fortunate to have him in the U.S.A.

What he is saying now has gone beyond words, and is only available through his silence. I find myself through his presence falling into a deeper richer communion with the magic of life as it is, as he lives it, through the heart, and not as I have been conditioned, through intellectual verbiage which keeps me separate. In his many years of discourses he has created a bridge between the intellect and the heart but now that is over.

He is taking us beyond that and it is our responsibility to allow him this deeper expression subtle and unavailable as it might appear to those

who are unprepared for it. I hope you can play
some part in this and exercise the insight needed to
cope with those blind to his beauty, and deaf to his
silence.

Your Sincerely

Swami Prem Sagapati,
