

to whom it may concern.

To live in the Dutch Buddhafield has made my life richer and richer.

In this way, to come closer to human being and myself. This experience "love", is an value in life.

I can only say Bagwan Shree Rajneesh. Who gave me back the taste of living life.

Once a year I love it to see my master healthy back in RajneeshPuram, to sit with him in silence, together with many, many other pupil.

Respect this beautiful man, our master while he is still alive.

His work is love, to feel his presence, his being is an blessing,

respect and love to you.
