To Whom it may concern,

When I just think of last year and this years festival in Rajneeshpuram... Bhagwan Shree Rajneesh passing by in his car greeting all his lovers standing on one side of the road and him smiling all the way, I know this man is important for so many people all over the world and in the U.S.A.

All his disciples working with so much love and the atmosphere that's being created by him and all his disciples is so incredible to feel, I think all people can learn something of that.

I myself am living and working in a community in Holland, doing the work of Bhagwan with every Sunday Satsang: "A silent hart to hart community with our master" And with so many lovers all over the world and such a beautiful city as Rajneeshpuram it is really important that our living master Bhagwan Shree Rajneesh stays in the U.S.A.

with love.
